In-text references should be cited by giving the author's name, year of publication and specific page numbers after a direct quotation (Smith 1999, 28-29). A list of works cited must be inserted at the end of the paper. When referring more than once to the same author published the same year, identify each citation in the text as follows; (Smith 2012a; 2012b). When there are more than three authors, cite in the text as (Smith et al. 1999), but list all the authors in the reference list. References should be arranged alphabetically by author's family name, and chronologically for each author.
- Authors should adhere to the use of American-English and SI units.
- Please supply all details required by any funding and grant-awarding bodies on the title page of the manuscript.
