Greetings

Leem, Kyung Hoon
SNU IPUS Director

Welcome to the IPUS's 2019 Annual Review.

Since its official launch at the Unification Forum in 2000, the Institute for Peace and Unification Studies (IPUS) at Seoul National University has been committed to conducting diverse research projects and providing policy analysis and recommendations with the aim of achieving sustainable peace on the Korean Peninsula. In 2010, we launched HK Research Group projects to establish Peace and Humanities Studies. Since 2015, under the auspices of Seoul National University headquarter, we have been implementing the Unification Foundation projects, and in 2016, we launched the Unification Education Leading University project in collaboration with the Ministry of Unification. Finally, this year, we organized the National Universities Peace Network, a collaborative education and research network among scholars from across national universities.

The IPUS's role to engage in the promotion of peace and unification on the Korean Peninsula will remain unwavering. We will continue to address the inter-Korean exchange and reunification issues through diverse research projects with topics ranging from the denuclearization of the Korean Peninsula to the establishment of sustainable peace regime. Furthermore, we will exert ourselves to become a world-class research institute to serve a diverse international audience and contribute to the peace of mankind beyond the Korean Peninsula.

We sincerely ask for your continued interest and support. Thank you.

- 10 Organization
- 12 People
- 14 International Cooperation Network
- 15 Domestic Cooperation Network

■ Goals

The Seoul National University Institute for Peace and Unification Studies (IPUS) was established with the aim of recognizing 'unification' and 'peace' as the most important tasks of the Korean people and nation. At IPUS, we aim to contribute to society through academic research on the various issues that will need to be solved in the process of realizing unification and peace.

■ Vision

Establishment of a Dept. of Intersectional Unification Studies

We perform comprehensive, multidisciplinary studies in preparation for unification, using a systematic approach to the integration process between the North and South. We aim to construct an integrated model through an analytical survey of the North Korean society and the variations within it.

Establishment of 'Korean Peace Studies'

By establishing Peace and Humanities Studies, we present a new paradigm of Peace Studies, propose peace within the context of unification peace, and seek the global spread of peace culture.

Strengthening Next- Generation Unification and Peace Research

Develop various educational series to foster future generations of scholars who can establish a continuous virtuous cycle of research and education that can give back to society through the clear communication of research results.

Seoul National University Unification Research on Infrastructure Construction

Organize a 'SNU Unification Research Network' by acting as a focal point for exchanges and cooperation among research institutes related to North Korea and unification within SNU, such as the Unification Medical Center, the Unification Law Center, the Unification Education Research Center, the North Korea Nutrition Policy Support Office, and the North Korea-Overseas Agricultural Research Institute.

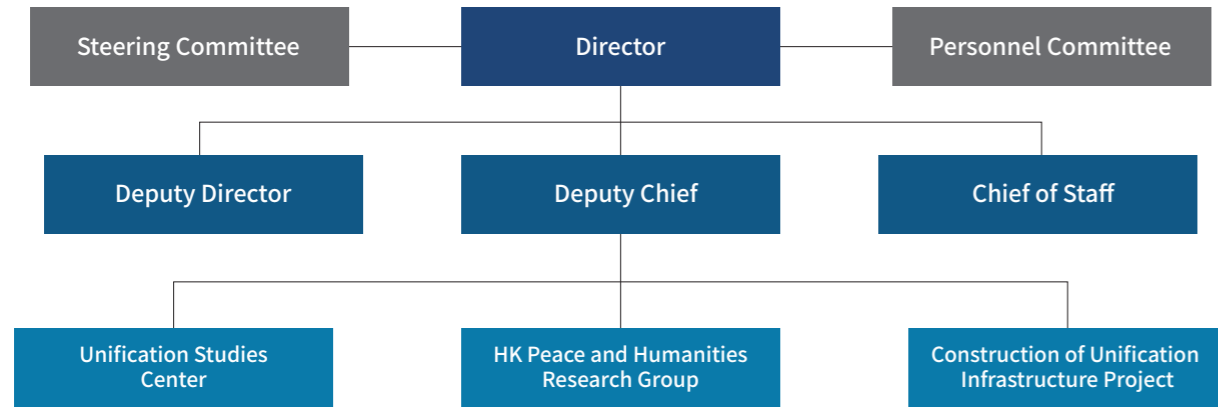

Unification Studies, Constructing a Peace Studies Global Network

By establishing a bilateral exchange program between the [SNU International Peace Network] and the [Northeast Asia Cooperation Network], we will internationalize unification research and complete a global network of Peace Studies from the Korean Peninsula.

SNU IPUS Survey...52% Say 'Dialogue is Possible With North Korea'

(Yonhap News 2019. 10. 8.)

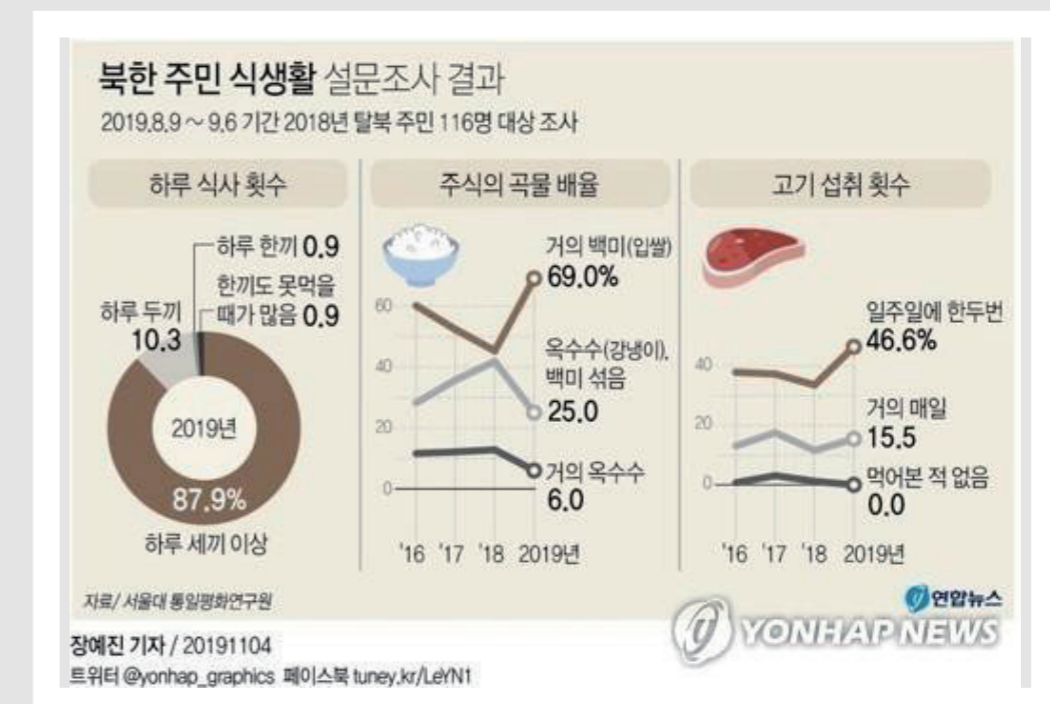

(Seoul=Yonhap News) Reporter Kim Dong Hyeon

According to the 2019 Unification Perceptions Survey conducted by SNU IPUS on the 8th, 53% of respondents said unification is necessary, down from 59.8% last year. The number of respondents who said they did not need it reached 20.5%, up from 16.1% last year. 'It seems to reflect a relatively more cautious atmosphere throughout the year 2018, when expectations for resolution of the North Korean nuclear problem and the settlement of peace on the Korean peninsula were heightened.

SNU IPUS 'After 2015, There Are Almost No Underfed in North Korea'

(Yonhap News 2019. 11. 4.)

(Seoul=Yonhap News) Reporter Park Su Yoon

A survey of North Korean defectors showed that there have been few absentees in North Korea since 2015. Analysts say that Kim Jong Un's regime is making some progress on the 'eating and living' issue despite concerns over food shortages. According to a survey by Seoul National University IPUS with 116 North Korean defectors, conducted between August 9 and September 6 this year, 87.9% said that they had access to at least three meals a day.

HK Peace and Humanities Research Group

In 2010, the Korean Research Foundation selected IPUS for 10-year funding of the Humanities Korea Project.

During the period of 2010-2020, the HK Peace and Humanities Research Group has been carrying out a research project called 'Peace and Humanities for the Green Korean Peninsula in the 21st Century'.

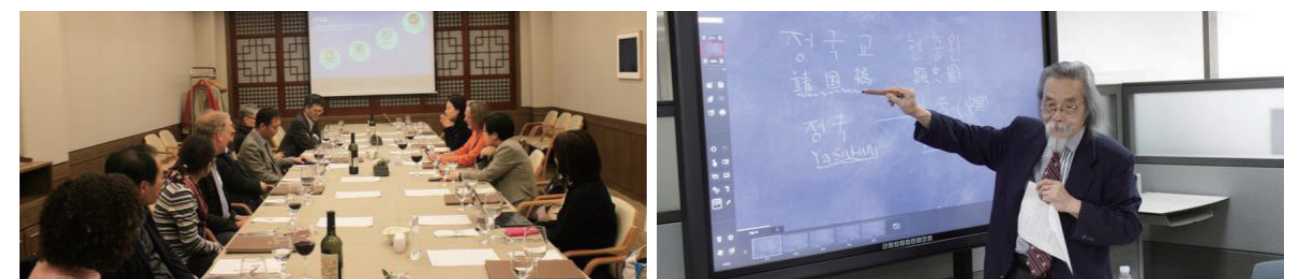

The main goal of the project is to expand the conception of peace studies, which have traditionally focused on social science, to employ the concepts used in Western-centered peace studies to the context of Northeast Asia and the Korean Peninsula, and to combine peace studies with newly emerging research on science, technology, and ecological issues in the age of globalization.

The group has published 'Journal of Peace and Unification Studies' and an international academic journal, 'Asian Journal of Peacebuilding (AJP)', twice per year. Additionally, HK Research Group has engaged in various activities such as publishing 'IPUS Peace and Humanities', 'the Para Pachem Series', 'the Peace Studies Archive', and 'Peace Classroom'. Together, these elements compose the [Peace and Humanities Collection].

HK Peace Studies Seminar

The 《HK Peace Studies Seminar》 is a representative liberal arts course of SNU IPUS, designed to expand the horizons of Peace and Humanities research and to promote education-research linkage system. A total of 12 seminars were held from 2019 to February 2020, inviting renowned scholars from outside the country who have lead the peace studies in order to help them communicate their long-term experience and achievements directly to the public.

Kwon Bodurae, 『The Night of March 1st』 (Dolbegae, 2019)

| Date: 2019. 11. 13. (Wed)

| Location: SNU Humanities Sinyang Building, International Conference Room

Program

Moderator: Hahn Monica

- Introduction to the 6th Book of Peace / Hahn Monica (SNU IPUS)
- The Story of the Book of Peace / Kwon Bodurae (Korea University Dept. of Korean Language and Literature)
- Conversation with the Author / Lee Ki Hoon (Yonsei University Dept. of Sociology), Moon Ah-Young (Peace Momo)
- Conversation with the Audience

IPUS selected the best book published in Korea for its contribution to promoting and disseminating the value and meaning of peace, as the ‘Book of Peace’ to invite the author to listen to lectures and discussions. After the 2019 ‘Book of Peace’ selection on September 27, 2019, the institute selected Professor Kwon Bodurae’s book ‘The Night of March 1st’ (Dolbegae). In this book, Kwon organized the Korean Peninsula around March 1st, 1919, which employs masterful use of both literary and historical sensibilities, as the 2019 ‘Book of Peace’. The 6th Book of Peace event was held on November 13.

Kwon Bodurae gave a speech on his book ‘The Night of March 1st’ as a result of his ten-year research project on the March 1st Movement. He gave a presentation on the significance of the world history of the March 1st Movement and the ‘Peace Studies’ aspect of the study. Additionally, Professor Lee Ki-Hoon of Yonsei University, CEO Moon Ah-Young, who participated in the panel, held heated discussions on the significance and realism of the private academic community surrounding ‘The Night of March 1st’. Later, questions about the movement and the book of peace were asked from an audience of about 30 or 40 people. Questions were asked from perspectives of literature, women’s studies, and athleticism. The questions had time to personally receive the authors’ own autograph of ‘The Night of March 1st’.

○ International Academic Journal: Asian Journal of Peacebuilding (AJP)

IPUS launched Asia’s first international journal specializing in Peace Studies, the AJP, in May 2013. The AJP, which is issued twice a year in May and November, communicates the academic possibilities of ‘Peace Studies from the Korean Peninsula’ sent in by researchers with Asia and the world, while collecting meaningful results from world peace studies.

AJP is Asia’s first international journal of Peace Studies, in both name and reality. The AJP is based on the international recognition of the problem of peace and humanities, while also collecting meaningful results from world peace studies. It has faithfully played a role in enhancing the quality of research activities in this institute. The editorial board has invited Nobel Prize winners Ramos Horta, the former President of Timor Leste, and former Chairmen of the ISA and IPRA (Harvey Starr, Ethel Solingen and T.V. Paul), resulting in outstanding papers by Nobel Peace Prize winner Aung San Suu Kyi and former President of Timor Leste Jose Ramos-Horta. AJP has a reputation for being internationally-minded and professional, not only in the screening process but also in the production process of paper publishing. It is currently a candidate for KCI registration, and the SCOPUS Selection Committee decided to register the journal in November 2019.

IPUS has a vision to spread and deepen peace and humanities as a new convergence knowledge system through two-way exchanges both at home and abroad. This vision is becoming a reality through strengthening international academic networks through AJP, promoting human exchanges and joint research. These efforts have are aimed in two directions: 1) the SNU IPUS International Peace Studies Network, which encompasses a wide range of peace research institutes around the world, and 2) the Northeast Asia Cooperation Network, concentrated five Northeast Asian countries (Korea, China, Japan, Russia, and the U.S.) and related agencies. In other words, the issuance of AJP contributes greatly to the promotion of trans-regional exchanges in the Northeast Asian region and at the global levels, beyond the borders of the Korean peninsula itself.

- | Post Socialism Research Series 2: The History and Politics of Socialist Vietnam in the Eyes of Researchers of Unification Studies (Chae Suhong and 9 others, 2019)

The second general book of the SNU IPUS post-socialist studies series is 'The History and Politics of Socialist Vietnam in the Eyes of Unification Researcher' was published this year. It is set in the context an era where the 'Road to Vietnam' was being talked about as interest in North Korean 'reform and opening up' and peace on the Korean peninsula were heating up. Vietnam, which is 'successfully' carrying out reforms and opening up while maintaining its socialist system, is showing the future path that North Korea could take. However, many people do not know the historical process Vietnam went through to reform and open its doors. There is also a lack of understanding about the shadow cast by Vietnam's 'Reform and Opening'. This report is based on the notion that Vietnams political economy, foreign relations, and culture must be understood in the past, present, and future in order to talk about the 'Road to Vietnam' [in regards to North Korea].

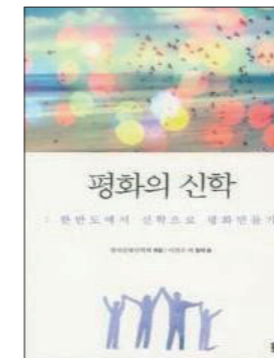

○ Individual Books

A Century of the March 1st Movement: A Vision of the 20th Century and Peace on the Korean Peninsula

Kim, Hak Jae et. al (2019/ Changbi)

『Looking at the March 1st Movement Through the Eyes of the Candle』 is part of an attempt by researchers in various academic fields, including literature, religious studies, sociology, and history to explore the modern meaning of the March 1st Movement. It is a must-read book that looks at contentious issues surrounding the March 1st Movement with a balanced perspective.

Theology of Peace: Making Peace on the Korean Peninsula through Theology

Yi, Chan Su et. al (2019/Dong Yeon Press)

Co-authored by experts in biblical theology, organizational theology, social theology, and Christian education/ missionary studies, this book presents the possibility of establishing a new branch of study called 'Peace Studies as Theology', and furthermore, 'Theology as Peace Studies'.

Reading the Hatred of Our Times

Yi, Chan Su et. al (2019/ Cheolsu and Young Hee Press)

This book uses themes of religion, discrimination, gender, and the law to diagnose why hatred has become so serious in modern Korean society. It seeks solutions to create a society where people peacefully beyond discrimination and hatred. Furthermore, the government should create a culture that can reflect more on the source of hateful feelings based on self-contradiction, ban hate speech by law, and systematically repair the damage done by hate speech. It stresses that the problem of hatred should be resolved using methods of dialogue and persuasion to achieve the goal of peace.

Beyond Historical Perception and Reasons for Division: Korea in East Asia, and Germany in Europe

Hahn, Monica, et. al (2019/ Hanwool)

The unification of East and West Germany has often been studied as a model for unification of the divided Korea in many fields. But it should not be overlooked that the historical backgrounds, conditions, and circumstances between Germany and the Korea may be as numerous and important as their similarities. It is premature to find a solution to Korean unification by bringing the German unification process to Korea based on vague similarities. This book emphasizes the need for a fundamental reflection on the differences between the two divided countries equal to that given to the similarities.

Construction of Unification Infrastructure Project

To prepare for systematic unification at the university level, in 2014 Seoul National University launched the 'SNU Unification Research Network', which organically links research institutes in various fields within SNU, such as humanities, sociology, law, agriculture, medicine, education, international politics, etc. based on the 'Project for Supporting Basic Research in Unification and Peace Studies' conducted between 2003 to 2012.

Seoul National University Unification Infrastructure Construction

Since 2015, Seoul National University has been pushing for a 'Construction of Unification Infrastructure Project' to promote comprehensive and systematic capabilities on unification issues, which are one of the main concerns of Korean government and society. This year, 30 institutions within the school conducted research on the areas of knowledge expansion, human resources development and unification education, global network construction, and multilateral cooperation through a total of 34 different projects.

서울대학교 통일평화연구원(원장 임경훈)은 2019년 4월 23일(화) 13:30-18:00 "한반도 평화를 위한 국가전략"이라는 주제로 통일평화연구원 창립 13주년 기념학술대회를 서울대 아시아연구소 삼익홀에서 개최했다.

서울대 통일평화연구원은 통일과 평화를 위한 다양한 학술적·교육적·정책적 대안을 모색하기 위해 2006년 창립되었다.

창립 13주년에 이르는 동안 연구원은 새로운 평화학의 정립을 위한 학제적 접근을 통해 '서울대학교 통일연구 네트워크'를 출범(2014)시켰다.

또한 통일기반구축사업으로의 확대(2015~현재), 통일교육 선도대학(2016~현재)으로서의 면모를 갖추며 통일과 평화를 위한 국내외 다중 협력적·학제적 네트워크를 구축하는 데 주도적 역할을 해오고 있다.

노동영 서울대 연구부총장은 축사를 통해 북한 비핵화와 한반도평화구축 과정의 불확실성 속에서 "한국은 한반도 문제의 당사자이면서도 북한과 미국, 주변 열강들 간의 협상과 합의를 이끌어내야 하는 매우 어려운 역할을 수행하고 있다"고 지적했다.

이어 "그동안 서울대학교는 한반도 통일과 평화정착 과정에서 발생할 수 있는 다양한 문제들을 예측하고 해결책을 찾을 수 있는 역량을 구축하는데 많은 노력을 기울여 왔고, 앞으로도 지속적으로 서울대의 통일평화 역량을 한층 더 높일 수 있는 방안을 다각도로 강구할 것"이라고 강조했다.

김범수 서울대 자유전공학부 교수의 사회로 진행된 창립학술회의는 2세션으로 진행되었다.

1세션에서는 정치분야(강원택 서울대 정치외교학부 교수), 사회분야(박명규 서울대 사회학과 교수), 외교·안보분야(윤영관 서울대 명예교수), 경제분야(이지순 서울대 경제학부 교수)로 나누어 분야별 발표가 있었다.

2019 Unification Education Leading Universities Research & Development

The 2019 Unification Education Leading University Project has supported various unification education related research and development projects in the past year. These include publishing unification textbooks, developing textbooks, researching Unification Education Leading University policy, supporting awareness of unification in North and South Korea through symposiums about Unification Education models.

2019 Unification Education Leading Universities Lecture Facilitation

The 2019 Unification Education Leading University Business Group has supported the Unification Education lecture facilitation enterprise at IPUS and nine other universities this year. Various courses related to the Unification Act, special lectures on Asian studies and North Korean regional research, special education on unification health and medical services, and training future leaders to build infrastructure on the Korean Peninsula. IPUS supported courses like the 19th Peace Academy, which provides comparative and field experiences.

Expansion and Distribution within the 2019 Unification Education Leading Universities

In 2019, the Unification Education Leading Universities Industrial Group has operated projects in cooperation with Kangwon National University, Busan National University, Jeonbuk National University, and the Free University of Berlin, in order to disseminate and spread the Unification Education Model. In each of the university's Peace Schools (Seoul National University, Kangwon National University, the Chun Cheon National University of Education, and Kangneung-Wonju National University), Peace Academies (Busan National University, Jeonbuk National University), and Citizen Peace Schools (Hangilsa, The Korean Cold War Studies Group), European and Korean students participated in summer peace camps.

'Stories of the People' Competition

As part of the 2019 Unification Education Leading University Project, the contest IPUS hosted the 'Stories of the People' competition as part of the Uniform Education Leading University project. The competition provided chances for students to express and deepen their interest, knowledge, and various ideas about peace and unification through their submissions (written papers, essays, novels, start-up plans, webtoons, posters, videos, etc.). The competition was held at Seoul National University to motivate students to increase their knowledge of peace, prosperity, and Unification. The contest was held for about a month and on June 13, the grand prize was awarded at the Seoul National University IPUS. The winners (Grand Prize, 2nd prize, and eight runners up) were awarded a total of 3.4 million won. The contest combined the knowledge and creative ideas of college students and played a positive role in presenting approaches to inter-Korean exchanges in various ways, including academic analysis, papers and travel essays, poetry and video production. In addition, it generated academic interest in the Unification, which hugely resulted in raising the awareness among university students of peace and inter-Korean exchanges.

Unification – Peace Academy Incubating

IPUS administered this year's Unification – Peace Academy for the 12th year in a row, hosting incubating sessions at both Busan National University and Jeonbuk National University. The goal of the program is to form a network of national universities around Korea that can provide students with timely lectures on peace and unification on the Korean Peninsula, and to spread the model that IPUS has been using since the program's origination.

Lectures began in September and lasted for eight weeks for 30 students at Busan National University, and for five weeks for 45 students at Jeonbuk National University. At the conclusion of the program, students from the 7th Peace Academies administered at Seoul National University, Busan National University and Jeonbuk National University's Academies also had the time to explore the border area in Cheorwon in Gangwon Province. This project is meaningful in that not only has it established a network of unification education-minded national universities, but has also spread educational models that combine both theory and practice.

The 19th Unification Academy

This year, Seoul National University IPUS hosted the 19th 'Unification Academy'. 76 undergraduate and graduate students interested in Unification and the North Korea issue participated from April 2nd to May 21. The Unification Academy improved understanding and interest among participating students about Unification and North Korea, and was also designed to produce future elites within a unified Korean Peninsula.

18 students and 5 researchers, or a total of 23 people, visited the DMZ (2019.5.10. – 2019.5.11) during the Academy. Students also visited Dorasan Station, the inter-Korean Transit Office, the Cheorwon Peace Observatory, and the Cheorwon Korean Workers' Party Headquarters to experience firsthand the reality of their divided country. It provided opportunities for students to think about plans for a desirable unified Korean Peninsula..
